SENIOR SOFTWARE ENGINEER // TECH LEAD
LONDON, UK — 15 YEARS IN ENGINEERING

BUILD. SCALE. EVOLVE.

01 // THE ENGINEER

BUILDING SOFTWARE THAT SCALES. BREAKING DOWN LEGACY SYSTEMS. LEADING TEAMS THAT SHIP.

Full-stack software engineer with 15 years of experience building scalable, customer-facing applications with TypeScript, React, Angular and Node.js across AWS, Azure and Google Cloud. Experienced in modernising legacy systems, designing modular architectures and leading engineering teams. Recent work spans micro frontends, cloud infrastructure, AI-assisted development and a real-time trading system.

[PRESENT → 2011]

Virgin Media Group

JUN 2024 — PRESENT
LONDON, UK

Senior Software Engineer

Lead an Agile team delivering customer-facing apps and modernising legacy code.

- Rewrote legacy flows as independently deployable micro frontends, now live.
- Built Next.js and Node.js features on Storyblok, improving SEO and scalability.
- Designed Node.js APIs connecting the UI, CMS and internal systems.
- Provisioned AWS (EC2, S3, Lambda, CloudFront, RDS) via Terraform with CI/CD.
- Applied Angular 18 and React best practices, backed by unit and E2E testing.
- Adopted Claude Code and Cursor: subagents, MCP integrations, project memory.

Builder.ai

OCT 2023 — MAR 2024
LONDON, UK

Senior Software Engineer

- Built scalable features in Angular, React, TypeScript, Node.js and Rails.
- Delivered Node.js services, API integrations and AWS infrastructure.
- Built CI/CD pipelines, increased Jest test coverage and refined RxJS patterns.
- Provided technical leadership via code reviews, pairing and product demos.
